

AI Training Cost Report

Generated at 2026-01-24 00:23 UTC

Executive Summary

This report provides a comprehensive analysis of the training cost structure. The total training cost is **530.8 USD**. The primary cost driver identified in this analysis is **Hardware Cost**. Among the evaluated scenarios, **Cheaper GPU** represents the most cost-efficient option.

Training Cost Breakdown

Category	Cost (USD)
Hardware Cost	516.0 USD
Storage Cost	10.0 USD
Token Cost	4.8 USD
Energy Cost	0.0 (EXTERNAL)
TOTAL COST	530.8 USD

Scenario Cost Comparison

Scenario	Total Cost (USD)
Cheaper GPU	446.8 USD
More Training	874.8 USD

Notes

- Energy costs are provided externally and may vary by region.
- Scenario calculations are derived from the same base training configuration.
